II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

On June 15, 2009, \$552 million dollars of SFSF money was used to avoid cuts in the districts' June 2009 equalization aid payments. An additional payment of \$236 million on June 21, 2010 was used to avoid a reduction districts' equalization aid payments. Based on LEA reporting, the funding contained in both payments primarily funded instructional staff salary and benefits. The second highest use of the funds was for payments made to school vendors such as utilities, transportation companies and fuel suppliers. Finally, several districts reported using the funds to support school improvement construction projects.

Please update for the new timeframe:

No funds were used during this period.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$0.00
Contracts for construction, modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$0.00

II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

The state of Wisconsin did not award funds to IHEs.

Please update for the new timeframe:

The state of Wisconsin did not award funds to IHEs.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$0.00
Student financial assistance:	\$0.00
Contracts for modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$0.00

II.C. Uses of Government Services funds by entities

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

Of the \$159.6 million awarded, \$71.7 million was awarded to LEAs, \$11.8 million was awarded to counties to assist in expenses related to juveniles in their county that reside in juvenile facilities, and \$76.1 million was awarded to counties in the form of shared revenue payments. Based on LEA reporting, the funding contained in both payments primarily funded instructional staff salary and benefits. The second highest use of the funds was for payments made to school vendors such as utilities, transportation companies and fuel suppliers. The Wisconsin Department of Corrections (DOC) received \$11,801,000 in GS funds in state fiscal year 2010 to be made available to Wisconsin county governments via the Community Youth and Family Aids program. The Community Youth and Family Aids Program provides each county with an annual allocation of state and federal funds from which a county may pay for juvenile delinquency-related services, including out-of-home placements and non-residential, community-based services. The state bills each county for the cost of its juveniles who are placed in a state juvenile correctional facility and for community programming for juveniles returning to the community following placement in a juvenile correctional facility. \$76,139,100 of GS funds were directed to the County and Municipal Aid program, which provides state aid to local governments. The County and Municipal Aid program is administered by the Wisconsin Department of Revenue (DOR). According to county government reports, most counties used the SFSF funds to fund county government employee salaries and benefits. Examples of employees funded included sheriff deputies and highway maintenance workers.

Please update for the new timeframe:

No funds were used during this period.

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	\$0.00
Construction, modernization, renovation, or repair of public school facilities:	\$0.00
Modernization, renovation, or repair of public IHE facilities:	\$0.00
Public IHEs (excluding modernization, renovation, or repair of public IHE facilities):	\$0.00
Public safety:	\$0.00
Public assistance:	\$0.00
Transportation:	\$0.00
Other:	\$0.00
Total:	\$0.00

III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

The state of Wisconsin did not award funds to IHEs.

Please update for the new timeframe:

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

Data should be provided for all four-year and two-year public IHEs. Private IHEs should not be included.

NOTE:

- The enrollment data are annual enrollment, not Fall semester enrollment. Full-time students are defined as those enrolled in 24 credits or more per year at the Wisconsin Technical Colleges.
- The data on students eligible for any need-based financial assistance reflect the total number of students who received need-based aid, including Pell grants, as reported by the colleges, and include both part-time and full-time students.
- The data on students eligible for Pell grants reflect the total number of students who received Pell grants as reported by the colleges, and include both part-time and full-time students.

IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

The use of SFSF was allocated by the Wisconsin State Legislature as part of the 09-11 Biennial State Budget and signed into law by Governor Jim Doyle. Without the \$876.9 million in funding the state would have had to make corresponding reductions to LEAs and local units of government, raise state taxes and/or reduce funding to other state programs.

Please update for the new timeframe:

No funds were used during this period.

V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

Jobs Reported Saved or Created in the First APR:

	Reported Jobs for 02/17/09 - 09/30/09	Reported Jobs for 10/01/09 - 12/31/09	Reported Jobs for 01/01/10 - 03/31/10	Reported Jobs for 04/01/10 - 06/30/10	Reported Jobs for 07/01/10 - 09/30/10

VI. Progress in Advancing Education Reform

A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

The Wisconsin Department of Public Instruction (DPI) continues to implement a variety of strategies to ensure the equitable distribution of highly qualified teachers. The annual statewide collection of highly qualified teacher data and the ongoing monitoring of these data continue. The reporting system is reviewed annually and enhancements are added each year to improve the data collection. Enhancements to make the state's data more usable are currently being added to the reporting system for the final year-end data collection for the 2010-11 school year. The state continues to offer incentives for national board certified teachers to teach in high-poverty schools. High poverty schools are defined as those with 60% of students eligible for free or reduced price lunch. National board certified teachers (NBCT) teaching in these schools are eligible for an annual grant stipend of \$5,000 for nine years following successful certification as a NBCT. Since its inception in 2008, there have been 118 National board certified teachers who have received \$5,000 grants for teaching in high-poverty schools. Other NBCT teachers in the state are eligible for an annual grant stipend of \$2,500. Another strategy used by DPI is to ensure a support system for initial educators, particularly in hard-to-staff contexts. Each year, DPI offers a competitive Peer Review and Mentoring grant for consortia of high-needs schools with at least 30% of students eligible for free and reduced priced lunch. During the 2009-10 school year, the grants totaled \$347,400. Additional support to initial educators comes from a statutory requirement for school districts to provide an induction and mentoring program. During the 2009-10 school year, \$1,108,500 was paid to districts for their induction and mentoring programs. Initial educators are required to prepare a professional development plan for license advancement and renewal. Additional support to these educators is provided by department trained professional development plan team members who review these plans. As part of the statewide system of support, DPI has focused work with the Milwaukee Public Schools (MPS). MPS is the only district in need of improvement in this state under ESEA and therefore, DPI works with MPS through an annual corrective action plan. As part of the corrective action plan for the 2010-11 school year, DPI has established school year goals with quarterly indicators and evidence that verify progress toward the goal of equitable distribution of highly qualified teachers. In Quarter I of the 2010-11 school year, DPI required a copy of the written methodology for measuring the equity of teacher and principal distribution among MPS schools based on licensure, experience, evaluations and other qualifications. The state highly qualified data indicates that MPS has the largest number of teachers who are reported as not highly qualified. Therefore, DPI is providing technical assistance to MPS in our work to reduce the inequitable distribution of highly qualified teachers in this state. In September 2010, DPI offered assistance in developing an equitable distribution policy and provided comparison of requirements surrounding this topic in the corrective action requirement and 2009 WI Act 215. Also provided to MPS was an example from another state that might serve as a resource for MPS. DPI was awarded a \$2 million Wallace Foundation grant to support leadership development in urban schools in Wisconsin. As a result, ongoing work has been taking place in the five largest urban districts to recruit and develop principals for urban school districts. Further, the grant allowed the state to revise the content standards for the administrative preparation programs and to assist programs in developing performance-based measures to evaluate candidate proficiency. DPI was awarded a \$2.2 million Transition-to-teaching grant from the USDE to recruit, train, and place 100 mathematics, science, and special education teachers in high-need school districts in the state. The grant will allow DPI to train in critical shortage areas for the high-need districts. The pipeline project will train through alternative route to licensure programs and require a three-year teaching commitment from participants. The Urban Teacher World program continues to be a successful effort to engage diverse PK-12 students in the field of education and supports the development of a pool of potential educators currently attending high-need middle schools and high-need high schools. In May 2010, the annual Urban Teacher World had approximately 200 participants that included students and advisors. As well, the Future Educator Association activities spearheaded by the state continue with a focus on expanding these student organizations in urban school districts.

Please update for the new timeframe:

HQ data is available on our website at:

<http://data.dpi.state.wi.us/data/offerrings.aspx?GraphFile=BlankPageUrl&SCounty=47&SAthleticConf=45&SCESA=05&OrgLevel=st>
Since the inception of the NBCT stipend of \$5,000 to teach in high need schools was introduced in 2008, 294 NBCT teachers have requested \$5,000 stipends for teaching in High Needs Schools; 3,183 NBCTs have requested \$2,500 stipends for teaching in Wisconsin Schools. To date, \$9,427,500.00 has been granted through the annual stipend program. The Peer Review and Mentoring competitive grant program awarded 23 grants during the 2010-2011 year for a total of \$385,900 in disbursement. The annual grant allocations to LEAs for induction and mentoring support in 2012-2011 totaled \$996,750 in disbursement. The Milwaukee Public Schools (MPS) corrective action plan continues to support MPS in ensuring equitable distribution of highly qualified teachers. Four quarterly strategy sessions were held with the DPI and MPS to discuss equitable distribution, to review data, and to plan ongoing recruitment and retention efforts to ensure highly qualified teachers and principals. The 2012-2013 Corrective Action Plan is in draft stages and will continue to focus on this initiative. The SMARTT transition to teaching grant for Wisconsin awarded by the USDE continues to gain momentum. When the grant was awarded, 15 high need school districts were included in the project. High need school districts were determined, per the grant requirements, based on 2007 census data. The DPI received permission from the USDE to include additional high need school districts in the grant during the 2010-2011 year, based on 2009 census data. The department now has 22 high need districts involved and will bring one more district on board next month. We have been successful in preparing and providing teachers of record in math, science, and special education for our most high need school districts in Wisconsin. The Urban Teacher World project just completed another successful year, culminating with approximately 200 students and advisors attending this year's conference. The goal is to inspire urban middle

school and high school students to enter the teaching profession.
